# IWI US TAVOR® SAR

**American Rifleman – 2014 Golden Bullseye Award  
Rifle of the Year**

The TAVOR® SAR, first introduced to the US market in late March of 2013, has won the American Rifleman 2014 Golden Bullseye Award for the Rifle of the Year!

Now in their 12th year, the NRA Publications Golden Bullseye Awards acknowledge the finest products available in the shooting sports. The winners are selected by a seven member committee of editors, graphic designers and veteran NRA Publications staff, representing more than a century of collective experience in the shooting and hunting industry. To qualify for consideration for a Golden Bullseye Award, a product must have been:

- Recently introduced and available to consumers prior to the selection of the Golden Bullseye Awards
- Used/tested by a staff member or regular contributor to the magazine and/or affiliated media
- Reliable in the field, meeting or exceeding the evaluator's expectations
- Innovative in design and function
- Readily perceived as a value to the purchaser
- Styled in a manner befitting the shooting and hunting industry and, perhaps more importantly, its enthusiasts

The Golden Bullseye Award is a symbol of excellence and innovation in firearms. IWI US, Inc. is proud and honored to have been selected to receive this coveted award for our TAVOR® SAR.

## IWI US and the TAVOR® SAR Bullpup Rifle

Welcome to IWI US, Inc., the USA based subsidiary of Israel Weapon Industries (IWI) Ltd., a world leader in the production and marketing of unrivaled, combat proven, small arms. Following the successful launch of IWI US, variations of these same proven firearms are now available for sale in the US commercial and Law Enforcement markets.

IWI's firearms were developed in close cooperation with the Israel Defense Forces (IDF). IWI and IDF established joint Research & Development teams to develop the TAVOR® bullpup rifle, whose final configuration is the product of ongoing interaction, field tests and modifications resulting from real-world requirements.

The intensive and constant use of IWI's firearms by the IDF and top Military and Law Enforcement agencies throughout the world enable the company to design its products accordingly; optimizing, innovating, modifying and constantly improving the production according to the needs of its very demanding customers.

The entire production at IWI, in the new US based subsidiary and at the primary factory in Israel, are in compliance with the most stringent military standards (MIL-STD), ensuring the highest quality, consistency and reliability in the products finding their way into the US market.

IWI US has focused its initial production efforts on producing the TAVOR® SAR bullpup rifle, caliber conversion kits, magazines and accessories. In the future, look to IWI US for many more MIL-STD, high quality, real-world, battle proven firearms that will be made available for the US civilian, Law Enforcement and Military markets.

ALL TAVOR® SAR rifles for the US market have the following features:

- Bullpup configuration; short rifle convenience with long rifle accuracy
- Optimized ergonomic design for increased comfort and ease of use
- Clean, long stroke, gas piston operation
- Body constructed of high strength impact modified polymer in Black, Flat Dark Earth or OD Green colors
- Caliber 5.56 NATO with detachable cold hammer forged (CHF) chrome lined barrel, 1:7 twist, CrMoV steel
- Optional 9mm Para conversion kit with CHF barrel, 1:10 twist, CrMoV steel
- 100% ambidextrous capable configuration and operation with after market left hand bolt for 5.56 NATO. No additional parts required to convert 9mm Parabellum to LH configuration
- Integral folding adjustable BUS (backup sights) with Tritium front post
- Integral ambidextrous front and rear quick detachable sling swivel receptacles with push button ball bearing swivels
- Simple field stripping into easily serviceable subassemblies
- MIL-STD 100% interchangeability of all TAVOR® SAR parts
- Uses standard AR-15/M16/STANAG magazines
- Last round hold open on empty magazine
- All metal parts are treated for corrosion resistance
- Integral rubber recoil pad

# TAVOR® SAR “IDF” Model

The TAVOR SAR “IDF” model is a semi-auto civilian version of the TAVOR TAR-21 issued to the Israel Defense Forces. In addition to all the outstanding features found in every TAVOR SAR, the IDF model includes a Meprolight® Mepro 21 Day/Night Illuminated reflex sight mounted directly to the barrel. This “built-in” optic features a constant, all-light aiming capability, without batteries. Like the rifle it sits on, it was designed and built with the close collaboration of the IDF.

Perfect for urban CQB applications, where getting in and out of a vehicle quickly or clearing a doorway are important considerations for you. The TAVOR SAR may be just what you’re looking for in an extremely reliable 5.56 NATO platform. Compact, only 26 1/8” overall, yet offering the ballistics of a full 16 1/2” barrel.

- Barrel Length: 16 1/2”
- Overall Length: 26 1/8”
- Folding built-in backup sights with Tritium front post

# TAVOR® SAR FLATTOP Series

Whether your choice of a TAVOR SAR is for Law Enforcement, competition, plinking or home defense, the FLATTOP models offer you the most shooter options. Featuring a full length MIL-STD Picatinny top rail coupled with a MIL-STD short rail mounted at a 45° angle opposite the charging handle, the TAVOR FLATTOP enables you to configure your TAVOR with whatever optics and accessories you want. Battle proven by the IDF and now adapted for civilian use in the USA, this is the toughest, most compact, most reliable semi-auto in 5.56x45mm you can own.

Available with a 16½" barrel with an overall length of 26⅞" or an 18" barrel with an OAL of 27⅝". The 18" barrel model comes standard with a bayonet lug.

All TAVOR FLATTOPS feature BUIS (Backup Iron Sights) embedded and spring loaded in the top Picatinny rail. The front post contains a Tritium insert and is on a standard AR thread, fully adjustable for windage and elevation with the tool provided.

A TAVOR SAR is also available in a "stock" left hand version with all controls assembled for left hand operation, including the charging handle, safety lever, QD sling swivel receptacles, relocation of the forward 45° Picatinny rail to the left side and left side ejection.

(Black with 16½" barrel / OAL 26⅞" only.)

# TAVOR® SAR FLATTOP OPTIONS

## Flat Dark Earth & OD Green

The TAVOR® SAR Flattop Series incorporates a full length MIL-STD Picatinny top rail in addition to the standard short rail mounted at a 45° angle opposite the charging handle. Available with a 16½" barrel with an overall length of 26⅞" or an 18" barrel with an OAL of 27⅞".

## Restricted State Models

If you live in the states of California, Maryland, Massachusetts or New Jersey, there is a TAVOR SAR RS (Restricted State) model for you.

For California, our TSB16CA is built on our 16½" barrel, comes with a 4" removable muzzle brake that yields an OAL of 30" when attached, and a 10 round magazine that can only be removed with the use of a tool.

For Maryland, our TSB16MD is built on our 16½" barrel, comes with a 4" removable muzzle brake that yields an OAL of 30" (minimum 29") when attached, and is supplied with a 10 round magazine.

For Massachusetts and New Jersey, our TSB18RS is built on our 18" barrel and features a non-removable 2" muzzle brake that yields an OAL of 30", and is supplied with a 10 round magazine.

# TAVOR® SAR 9mm Conversion Kit

9mm Luger Parabellum (9x19mm) CHF CrMoV Barrel, 1:10 RH

Blowback Recoil Assembly

9mm Deflector

9mm Magazine Adapter

9mm - 32 round steel magazine

Barrel Wrench Tool

Think of the applications. The TAVOR SAR is uniquely convertible from 5.56NATO to 9mm Luger Parabellum (9x19mm). The conversion kit (Item #TSK9) includes a 17" cold hammer forged barrel made of CrMoV steel with a 1:10 RH twist, a complete blowback recoil assembly including the bolt and bolt carrier, a 9mm magazine magwell adapter, a barrel removal wrench, a 9mm deflector and a 32 round steel 9mm magazine.

# TAVOR® SAR Custom Cases

## TAVOR COMPLETE (TC CASE)

Two large heavily cushioned and secured compartments hold your TAVOR SAR in one and your 9mm conversion kit in the other. Molle compatible webbing on the exterior of the case comes standard with three gusseted pouches with lined water resistant interiors. Elastic Molle webbing on the interior, opposite the conversion kit compartment, holds up to 4 – 30 round 5.56NATO magazines and 6 – 32 round 9mm magazines. A cushioned carry handle plus two removable and adjustable shoulder straps with more than 8 possible strap/sling holding points round out the feature list. All stress points are double (or more) stitched. Zippers, D rings, pulls and clips are all first quality; virtually indestructible. Comes with an embroidered removable IWI logo patch with room for your own Velcro backed unit or flag patch plus a Velcro backed name patch.

## TAVOR MULTI-GUN (TM CASE)

This custom case has all the features of the TAVOR COMPLETE case except that instead of an interior compartment for the 9mm conversion kit, it has a compartment that will easily accommodate a second TAVOR SAR or two full size handguns. Elastic Molle webbing in this compartment is setup to hold up to 8 – 30 round 5.56NATO magazines.

# IWI Hats

Show your pride in your IWI firearm with the IWI embroidered logo hat. 100% cotton, vented 6 – panel with size adjustable Velcro strap.

Black

# TAVOR® SAR Magazines

TAVOR SAR polymer magazines have now undergone the same rigorous testing and evaluation by the Israel Defense Forces (IDF) as our TAVOR rifle and have been approved for use by the IDF.

TAVOR SAR magazines are available as follows:

- 5.56NATO: Polymer, 30 – round with or without window in Black, Flat Dark Earth or OD Green colors
- 5.56 NATO: Polymer, 10 – round without window only in Black or Flat Dark Earth
- 9mm: Steel, 32 – round for use with 9mm conversion kit

TAVOR polymer magazines feature non-tilting followers and corrosion resistant stainless steel springs. Window magazines provide you with a visual indicator of the number of remaining rounds.

# TAVOR® SAR Parts & IWI® Accessories

IWI accessories currently include three different vertical fore grips (one with flashlight holder) and a bipod. All of these IWI accessories can be mounted on the optional short forearm Picatinny rail (pictured below) or the 45° forward rail of your TAVOR.

**TA0030:** A 5 – position IWI flashlight holder that mounts perfectly on the 45° forward rail of your TAVOR. This “articulated” flashlight mount will bring your light closer in to the body of the TAVOR than other mounts available.

**TA0020:** This IWI flashlight grip adapter combines a light mount and vertical fore grip into one unit that eliminates rail clutter. Accommodates 1" push button end cap flashlights.

**TA0015:** IWI polymer and rubber ergonomic vertical grip with checkered finger grooves and rubberized backstrap. No tools required.

**TA0100:** The IWI Picatinny mount bipod is rugged and versatile. The strong, lightweight design made from stainless steel and polymer is extremely well constructed with multiple features. There are no external springs. The whole mechanism is encased to prevent dirt and sand infiltration.

## IWI CLEANING KIT WITH SIGHT TOOL & SWIVELS

Each TAVOR SAR leaves the IWI US factory with a field cleaning kit containing a 4 – piece cleaning rod, bore and chamber brushes, cleaning brushes, an oil vial, a sight adjustment tool and two QD push button sling swivels. Available for after-market sale.

## TAVOR SAR SPARE PARTS

Spare parts are now available for your TAVOR SAR. Keep a spare firing pin and firing pin spring on hand or get the entire TAVOR SAR “Survival Kit” and/or a Fire Control Pack for your range bag/kit.

\*Survival Kit\* Contents:

- Firing Pin
- Firing Pin Spring
- Bolt Guide Pin
