

ORPAZ Polymer Holsters General Use Instructions:

The ORPAZ polymer holsters are constructed of a reinforced injection-molded Nylon. It consists of two major components: The holster and the paddle, and has a 360° adjustment capability.

The holster can be separately attached either to a MOLLE adaptor, belt adaptor, thigh rig adaptor or a low ride adaptor.

Characteristics:

- Trigger guard retention can be adjusted by using the Allen key supplied with your holster. Please use ONLY the provided Allen key and DO NOT use an electric screwdriver on the screws.
- The paddle has two screws which enables its attachment or detachment to the holster body, as well as carrying cant adjustment.

ORPAZ Polymer Magazine Carrier General Use Instructions:

- The principals of paddle attachment and adjustment are similar to the ones of the abovementioned holster.
- A magazine retention screw can be found on the upper front part of the magazine carrier .
